

CRIMSON TECHNOLOGY, Inc. Privacy Policy

1. CRIMSON TECHNOLOGY, Inc. ("our company") will comply with the Personal Information Protection Law and other related laws and regulations.

2. Our company will not collect personal information without your permission. When using your personal information, we ask you to clarify the purpose of use in advance and provide your personal information with your consent. In that case, we may use your personal information within the scope of the purpose you understand. If you are under the age of 16 and wish to provide your personal information to our company, we ask that you do so with the consent of your guardian.

3. our company will not disclose or provide your personal information to third parties except in the following cases:

1) If You Agree

2) When disclosure is required by law or legal procedure

3) When it is necessary for the protection of human life, body and property

4) Necessary to improve public health or promote sound development of children

5) To the extent necessary for the relevant subcontracting business, provide information to a subcontractor who has an obligation of confidentiality equivalent to this Policy under an agreement, etc.

4. In the event that our company handles your personal information, it will designate a person in charge of management and take measures to ensure the proper handling of personal information. In addition, we will take appropriate and reasonable measures from the technical and management aspects to prevent unauthorized access, loss, alteration, leakage, etc., and store them safely.

5. Our company will respond to requests for disclosure, correction, deletion, etc. of personal information within a reasonable scope and period of time.

6. Our company is not responsible for the handling of personal information on our company's linked sites. When using the linked site, please check the rules of each site and use it at your own risk.

7. The Company will review and improve the content of each of the above items as necessary with respect to the handling of customers' personal information.

◆ **About cookies**

The our company website may use a technology called "cookies" to make it more convenient for you to visit the website again. Cookies are technology that allows web servers to identify customers' computers for the efficient operation of the Internet. Cookies can identify your computer, but not your personal information. You cannot identify yourself unless you enter your personal information. Depending on your browser, you may be able to disable the cookie function by changing the setting, but as a result, some or all of the services on the web page may not be available.
